

Colorado: Portrait of a State (Portrait of a Place)

Colorado looms large in our minds---where the western prairie terminates on the eastern flank of the mighty Rocky Mountains---endless landscapes, infinite blue skies, and superlative mountain ranges that have inspired everyone whos lived in, hiked, or even just seen them. From the impossibly jagged peaks and sparkling waters of the Front Range to the long, golden grasses of the eastern plains, this tour of Colorado will dazzle you. The towering heights of the Fourteeners, those Rocky Mountain peaks with elevations over fourteen thousand feet in height to the short-grass prairies and the sand dunes of the east and southern parts of the state, Colorado is a rich tapestry of scenery and landscapes.

Parent, a freelance photographer and writer specializing in landscape, travel, and nature subjects, presents a portrait of Texas through color photos of itsPhotography portrait session location ideas in Denver Greater Area.
