

## Scottish Country

Scotland's authentic style is revealed here in country houses, traditions and culture, and in images including a tiled Edwardian kitchen at Ardkinglas; a bright, richly decorated ceiling inside a thick-walled Jacobean tower house; a lush garden carpeted with bluebells; and the comfort of well-stuffed furniture in living rooms and libraries. Many of the treasures of Scottish life are also explored, in sections on painted ceilings, romantic painting, Harris Tweed, tartans, pottery, dovecots, trout and salmon fishing, deerstalking and grouse shooting. This welcoming civility is set against the splendours of the landscape, with windswept hills, craggy coastlines and lakes veiled in mist. A directory lists houses and gardens open to the public, as well as island tours, inns, hotels and antique shows - even where to buy armour.
