Meherrin and the Murder Mystery of Jason Blackwell tells a beautiful story of life, death, love, war, faith and justice. Meherrin, a spirited, young girl living under her grandmothers roof coping with the daily pressures of living life in the hood, bravely decides to solve the murder of one of her high school peers despite having very little resources to guide her. She courageously endures unpredictable obstacles she stumbles upon during her quest for the truth which she solves despite her initial apprehension. The reader takes a journey into Meherrins life as she solves a socially unjust murder mystery while battling problems faced by many urban teenagers in our society today.
