

# FRANKENSTEIN (HORROR) COMICS: The New Adventures Of Frankenstein: VOLUME 3: CHAPTERS 41-56

From The Horror of FRANKENSTEIN to FRANKENSTEIN, The Merry Monster In Prize Comics #7 (Dec. 1940), writer-artist Briefer (using the pseudonym Frank N. Stein in the latter role) introduced the eight-page feature New Adventures of Frankenstein, an updated version of the much-adapted Frankenstein monster created by Mary Shelley in her 1818 novel Frankenstein. Considered by comics historians, including Don Markstein, as America's first ongoing comic book series to fall squarely within the horror genre, the feature, set in New York City circa 1930, starred a guttural, rampaging creature actually dubbed Frankenstein (unlike Shelley's nameless original monster). Upon the monsters return from the war, Frankenstein settled into small-town life, becoming a genial neighbor who began having delightful adventures with Dracula, the Wolfman and other horrific creatures. Briefer, with his trademark loose and smooth ink and brush skills began telling stories that would straddle some amorphous line between pure children's humor and adventure and an adult sensibility about the world.
