

Corrosion of Metallic Heritage Artefacts: Investigation, Conservation and Prediction of Long Term Behaviour (European Federation of Corrosion (EFC) Series)

Understanding long term corrosion processes is critical in many areas, including archaeology and conservation. This important book reviews key themes such as the processes underlying corrosion over long periods, how corrosion rates can be measured and materials conserved. After an overview of the study and conservation of metal archaeological artefacts, a group of chapters reviews long term corrosion in metals such as steel, iron and bronze. Other chapters review the impact of environmental factors on corrosion rates. The book also considers instrumental techniques for measuring corrosion such as electrochemistry and scanning electron microscopy, as well as ways of modelling corrosion processes. There is also coverage of the effectiveness of corrosion inhibitors. With its distinguished editors and contributors, Corrosion of metallic heritage artefacts improves our understanding of long term corrosion and its effects. It provides a valuable reference for those involved in archaeology and conservation, as well as those dealing with the long term storage of nuclear and other waste. Reviews long term corrosion in metals such as steel, iron and bronze. Considers instrumental techniques such as electrochemistry for measuring corrosion.

Corrosion of Metallic Heritage Artefacts. Investigation, Conservation and Prediction of Long Term Behaviour. A volume in European Federation of Corrosion (EFC) Series. 2007, Pages 109-130. Edited By P. Dillmann, G. Beranger, P. Piccardo

Corrosion of metallic heritage artefacts : investigation, conservation and prediction of long term behaviour / edited by P. Dillmann [et al.] European Federation of Corrosion (EFC) Series 1 online resource (xxx, 378 p.)

Corrosion of Metallic Heritage Artefacts. Investigation, Conservation and Prediction of Long Term Behaviour. A volume in European Federation of Corrosion (EFC) Series. 2007, Pages 1-17. Edited By P. Dillmann, G. Beranger, P. Piccardo

Corrosion of Metallic Heritage Artefacts. Investigation, Conservation and Prediction of Long Term Behaviour. A volume in European Federation of Corrosion (EFC) Series. 2007, Pages 3-140. Edited By P. Dillmann, G. Beranger, P. Piccardo

A volume in European Federation of Corrosion (EFC) Series conservation versus laboratory investigation in the preservation of metallic heritage artefacts. Metallic Heritage Artefacts.
