

You Might Just Make It out of This Alive

Garrett Cook truly amazes me. His imagination is mind-blowing, his prose sings like the sweetest discombobulated sirens, and no matter how far out or strange his stories may get, he has the magical ability to make it all work. -Trent Zelazny, author of *To Sleep Gently There's no way to prepare, no way to protect yourself.* Garrett Cook's work has an edge...and its at your throat. -Robert Dunbar, Bram Stoker nominee, author of *Martyrs* and *Monsters* Garrett Cook and Jimmy Plush aint fluff. Raw and uncut, dealing out death to the offensive, they preach sledgehammer when they drop hardcore in hardboiled -Joseph S. Pulver, Sr., Editor of *A Season in Carcosa* It is one thing to create a world. It is another thing to make it real. Cook's impressive and highly ambitious novel does this admirably. -Sean Keller, screenwriter *Dario Argento's Giallo* and *Rage* (starring Nicholas Cage) on *Murderland* From the *Wonderland Book Award* winning author of *Time Pimp* and *Jimmy Plush*, *Teddy Bear Detective* comes a new collection of weird, horrifying, and heartfelt stories. Featuring: *Re-Mancipator* - When zombie Abraham Lincoln's start running amuck, John Wilkes Booth, Marilyn Monroe, and other greats from history must save the day! *Dieselpig* - The beloved Smiley the Pig is here to save us from the Catholic Church. And he's brought a shit ton of guns! *Brian's Girl* - A gorgeous woman arrives one day at a man's door for anonymous sex. It's not a dream come true- it's the beginning of a cult that will change the world. Plus fifteen more strange and beautiful tales.
