Prepare your children to survive in the real world! Today's children can recognize over 1,000 corporate logos but can't identify 10 plants native to their region. They live in an artificial world where they spend less than seven minutes per day playing outdoors and over seven hours per day staring at a digital device. But the threats our children face are real, from random violence and terrorism to natural, manmade, and accidental disasters. What skills do today's children have to prepare them to face threats of violence and disaster? For that matter, what skills and resources do their parents have? Playful Preparedness is a one-of-a-kind preparedness book, packed with 26 games and dozens of activities to help teach children situational awareness, life-saving preparedness skills and the survival mindset so that they can survive in the real world. Read Playful Preparedness today and help your children to become prepared for life. For more in-depth knowledge about preparedness, read my new book, START PREPPING!
