

Searching for Meredith Love

Meredith Love thought her life was just fine. Fresh out of graduate school, she had a shiny new job in the medical office where she used to be a secretary. Sure, she didn't really like all her co-workers, and yes, her bosses still asked her to drop everything to send a fax. And, okay, she had an irritatingly successful best friend who was always telling Meredith that her life sucked. But, like most people living a quietly miserable existence, Meredith didn't realize how unhappy she was in her adopted home of Albuquerque, New Mexico. Then Ben Abel, second-year medical resident, appears on the scene, and Meredith realizes what true happiness could be. Suddenly, her life looks as bad as her best friend always said and it's getting worse by the minute. Now Meredith is going to have to stand up and fight for the life she wants instead of the life she's got. And even if she succeeds, a secret from her past could ruin everything.
