

Sky Changes (American Literature (Dalkey Archive))

Divorce in America is the subject of Gilbert Sorrentino's novel. Tracing the New York-to-San Francisco journey of a family as husband and wife try to maintain the illusion that their marriage can be rescued, *The Sky Changes* records the unimaginable damage they inflict upon each other in order to force themselves towards divorce. Along the way, their two children become victims of the parents' failures and are dragged through the torment of this disintegrating marriage. No other novel in American literature is so narrowly dedicated to recording close-up the devastating pain of a marriage falling apart and the doomed-to-fail efforts to make it work.
