

Wake Up And Smell The Coffin

In a single lifetime, which moment mattered the most? Son, brother, husband, father. hero, alcoholic, wife-beater, musician, friend. At the moment of his death Wullie McAvoy confronts everything hes been, everything he couldve been and the people he loved, lost, saved and destroyed along the way. An innovative novella from the author of the Lanarkshire Strays series, the dEaDINBURGH series and On The Seventh Day. Praise for Wake Up And Smell The Coffin: Powerful little novel. Wonderful, complex characters. Truly shocking in places but also really moving and redemptive. It hits home how easily we can start to become people we really dont want to be. But, as always, Wilson gives his readers hope.
